DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application 8-136091. The Japanese Patent Application discloses a mixed-refrigerant filling method capable of the steps of additional filling the mixed refrigerant and measuring concentration ratios of the refrigerant components by employing measured values that are entered in a predetermined range as stated in applicant's specification (page 2).

Allowable Subject Matter

Claims 1-3 are allowed over the prior art of record.

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
